

Christie's Biscuits are the Best

EVERY particular housewife in Canada says Christie's Biscuits are so much superior to the next best that there is no comparison.

Christie's Biscuits are baked by specialists who know how, in the cleanest and most modern biscuit factory in the Dominion.

Every pound of flour entering into our cakes is the best milled—we blend the best brands, then sift and test our blend. Every

ance of raw material is analyzed by several inspectors. Pure, fresh butter, new, sweet milk, delicious cream and fresh eggs—all mixed with our special blend of flour in the Christ-

scientific way yields that unvarying flavor—
that crisp, delicious and lasting goodness
which has made

Christie's Biscuits

you do not know biscuit goodness until you've enjoyed Christie's.

**Sold in bulk, by the pound, or in moisture
and dust-proof packages.**

NEW ZEALAND PREMIER OPPOSES LOCAL NAVY

He Favors Making Liberal Contributions to the British Navy. Sir Joseph Ward, New Zealand Premier, is opposed to the idea of building a local navy.

Ottawa, Sept. 3.—Sir Joseph Ward, Premier of New Zealand, and Right Hon. James Bryce, British ambassador at Washington, were in conference here yesterday morning, both having arrived in the city earlier in the day from Montreal. They frankly admitted that politics had nothing whatever to do with their meeting. As a matter of fact, the subject of negotiations was the "amateur" cricket team. It seems that during the time of the Moore, was New Zealand possessed of some land on which a man named Webster, who had been employed in the whaling business in the Pacific had settled. This man's descendants now living in United States, are suing the New Zealand government for compensation for the land. The fact that the U. S. government has taken up the matter on behalf of Webster is what has brought it within the purview of the British ambassador and the New Zealand premier. Presently Ward says the claim represents \$250,000.

Objects to a Local Navy.
Regarding the imperial conference at which he represented New Zealand, Sir Joseph Ward said he did not presume to discuss Canada's relation to the defense matters, but as far as New Zealand was concerned, he thought it would be a great mistake to have a local navy and it maintained that idea throughout the conference. His idea and those of his supporters in New Zealand is that it is far better to make a contribution to the imperial navy and feel that at any time of need we have the whole British navy solid at our back than it is to build up a local navy. Besides doing that we know exactly where we are, but with a local navy we could not tell where the thing is going to, or where the expense is going to stop. We have our hands full of domestic problems in New Zealand at the present time, for instance, we are building eight railway lines, and we feel we are overtaxed that for the best thing we can do is to make a generous contribution to the imperial navy and let the British admiralty rest. "You did not even ask for contributions as a return for our services," he went on to say. "I think it is bound to come."
The net result of the conference, said Sir Joseph, "will be the immense strengthening of the British navy and the Pacific."
Sir Joseph expressed himself strongly in favor of the all-red cable and the telegraph line between Canada and Australia via Canada, pointed out by the governments of Great Britain, Canada, Australia and New Zealand.

Chap cables were an absolute necessity to preserve unity of opinion and promote closer social and industrial relations. Such cables must be made possible for the average man's use. He is convinced the rate of Standard cable must be reduced from three shillings to sixpence a word from London to New Zealand.

It is also strongly in favor of the all-red steamship route and said but for some unaccountable hitch in relation to the Atlantic route, he would have been in New Zealand some time ago. He is convinced such boats would keep up immediately with the Canadian.

At present friction between the two countries had to do with the fact that New Zealand marked their trade with the old country via Canada, and he in his official position always did this with government communications.

REDUCTION IN SPIRITS
Restricted Legislation Causes Decrease of Stimulants.

Ottawa, Sept. 3.—The annual report of the inland revenue department shows a falling off in the production of spirits as well as in the consumption of spirits. In the production of spirits during March 31 the quantity of spirits produced in Canada was 5,100,000 gallons, a decrease of 1,677,740 gallons as compared with the previous fiscal year. The total revenue collected during the year was \$10,000,000, a decrease of \$1,000,000.

Circumstantial Evidence Only.
Dr. W. E. King, Dominion astronomer, who arrived today to express an opinion as to the cause of the earthquake in the Pacific, said: "The fact that we have discovered the north pole but he will be able to furnish no scientific proof of his having done so. The scientific world and world at large will either have to discredit his story absolutely or take his word for it. I think the latter is more probable." He said that circumstantial evidence which he may be able to offer.

Sir Joseph Ward, premier of New Zealand, left for Toronto and Niagara today on Wednesday night from Ottawa. This afternoon he was met by James Bryce, British ambassador at Washington returned to Ottawa by this afternoon. Two hundred more men from the Ottawa valley left by special train from the union station at three o'clock this afternoon for the westward west fields.
For the year ending July 30, the total imports of cheese into Great Britain were 116,224 boxes, of which the Canadians supplied 76,574 boxes.

CLOUDBURSTS BRING DEATH TO THOUSANDS

Flood Causes Scarcity of Corn, Which May Result in Famine—Wheat, Wind and Heat Cause Great Damage to Crops of Life in Central America.

Mexico City, Sept. 4.—A dispatch received here from Mexico City, capital of Mexico, says that floods have ruined a large section of the country. A terrible rain storm, which caused the rivers and streams to overflow, and millions of fertile fields are under water. A branch of the Central Railroad has been washed out for a distance of 10 miles and the villages of Apizaco, San Miguel and Cuicuilco are under water.

Famine May Result.
The scarcity of corn resulting from the flood may lead to a famine. The district of Mexico City, 200 miles west of Mexico City.

Further details have been received here of the flood that swept the town of Tula, Tlaxcala, and the district of Toluca, Saturday. A wave between forty and fifty feet high rushed down the river and engulfed the town. Two hundred houses and the San Juan bridge were carried completely away. Many lives were lost. The storm raged with great severity for three days around Tula. The wind destroyed houses and blew down trees without number. Terrible are the conditions at Toluca. The crops are all ruined. The people are just as bad as Tula and vicinity.

The destructive wave as it swept down the valley, was accompanied by a cyclone wind and a hail storm that destroyed the crops in every direction. The entire northwestern section of the state is said to have been laid waste. It will be six or eight months before the highways can be restored. Tula, Toluca and vicinity have already been recovered and many bodies of corpses and mounds are being washed down into the valley below.

General Relief Takes Relief Work.
Simultaneous with the arrival of Montgomery on Wednesday night from Ottawa, the general relief work of General Bernard Rogers, who arrived here today, was met by General Moore, who arrived yesterday. General Rogers, who arrived yesterday, will be in charge of the relief work. Montgomery is in charge of the relief work. The relief work is being carried on by the British and Canadian governments. The state governments are contributing liberally toward the relief fund.

ONTARIO TADPOLES TOWNSITES.

Will Not Sell Any Land for Speculation Alone, C.T.P. Says.

Winnipeg, Sept. 3.—It was learned this morning from three Winnipeg sources that the Ontario government will not sell any land along the Canadian Pacific railway through that province for township purposes. Instead, the province will attract for the survey of new towns and the proceeds from the sale of the property will go into the public treasury. The province will not sell any land for township purposes. The province will attract for the survey of new towns and the proceeds from the sale of the property will go into the public treasury. The province will not sell any land for township purposes.

Local syndicates and capitalists have approached the Ontario government time and time again with regard to the purchase of land along the line, but all without avail. The province will not sell any land for township purposes. The province will attract for the survey of new towns and the proceeds from the sale of the property will go into the public treasury. The province will not sell any land for township purposes.

EARLY THRESHING THIS YEAR.
Present Perfect Weather Leads to Rapid Harvest.

Winnipeg, Sept. 3.—With the present period of perfect weather the farmers have been making remarkable progress in threshing operations and reports from all districts are that the work will be finished much earlier than expected. If the weather continues favorable this season harvesting and threshing will be one of the shortest on record, and the eastern harvesters will be able to return home much earlier than in other years.

Local telegraph companies report that the grain harvest is nearly finished. The work will be finished much earlier than expected. If the weather continues favorable this season harvesting and threshing will be one of the shortest on record, and the eastern harvesters will be able to return home much earlier than in other years.

Enthusiastic Over Western Crop.
Ottawa, Sept. 3.—M. J. Butler, deputy minister of railways and canals, who has returned from a three weeks' trip of inspection to the Pacific coast, is enthusiastic about the prospects for a big grain crop. From what he has seen he believes the harvest will be one of the best in years.

Newfoundland's Premises Lack.
St. John's, N.F., Sept. 3.—Premier Morris arrived home this afternoon from England.

REGINA'S CIVIC SCANDAL.

Implicated Aldermen Were For Investigation Before Supreme Court Judge.

Regina, Sept. 2.—Another step in the Regina transfer scandal which has been running since the top of public interest for the past three days, in which the city aldermen, J. H. Peverett and Thomas Wilkinson, and the city clerk, J. K. Hunter, are implicated, was taken tonight when at a meeting of the city council specially convened by Mayor Williams for that purpose, alderman Peverett moved that the city clerk be removed from office for the purpose of enquiring into certain charges contained in the morning Regina Leader of August 31, and September 1 and 2, with respect to the drawing up of a transfer to the city clerk's office, and leaving therefrom the clause relating to the transfer of the city clerk to the city and to further enquiry into all matters connected with the handling of the city's business, also property since the year 1907. The resolution passed unanimously and will be once taken to arrange for the enquiry in question. City Clerk Hunter, for having in his resignation to Mayor Williams, which will be formally taken up at the next regular meeting of the city council.

Meanwhile his worship has taken charge of the city clerk's job to the various offices and vaults hitherto under his charge. This step followed inevitably upon the question raised by Alderman Darke during the meeting as to the propriety of the city clerk continuing in his position with the custody of all the documents relating to the charges since he himself was one of those who consented to be the subject of the investigation.

FIRE CHIEF'S RAKEOFF.
More Evidence of Unending Graft in Montreal.

Montreal, Sept. 1.—It cost Roch Marion \$5,000 in bribes and \$2,000 in expenses to become fire chief of the city of Montreal. The fire department, in order to do business, has to pay the chief of the fire department. The fire department, in order to do business, has to pay the chief of the fire department. The fire department, in order to do business, has to pay the chief of the fire department.

Swedish Strike Called Off.
Stockholm, Sept. 4.—The labor force of the city of Stockholm, Sweden, which has been in progress for several weeks, on September 6, this decision was the outcome of government intervention in which it being divided between a settlement of the difficulties satisfactory to all parties.

PATENTED AUTOMATIC LIFT TOP

The Easiest Way to Feed Fire

You can replenish fire in Saks-Alta without lifting off a pot-hole cover or squeezing a shovel through a narrow feed-door. Whether you drop coal in from scuttle or put it in by shovel you can readily place it in any portion of firebox desired. It's a handy feature, the Automatic Lift Top. It's an exclusive Saks-Alta improvement, too.

FRENCH ON NAVAL DEFENSE.

Approve and Canada's Contribution to the Great Imperial Navy.

Quebec, Sept. 3.—Speaking of the naval defense of the empire, Major General Sir George French, K.C.M.G., said: "As far as Australia is concerned, I approve of the navy and think that the proposed one will be sufficient for the needs of the empire. The navy is the most important part of the great imperial navy and is entirely detached. Australia is so isolated from the rest of the Empire that she must have some means of defense. The navy is the most important part of the great imperial navy and is entirely detached. Australia is so isolated from the rest of the Empire that she must have some means of defense. The navy is the most important part of the great imperial navy and is entirely detached. Australia is so isolated from the rest of the Empire that she must have some means of defense."

Italy Visited by Earthquake.
Rome, Italy, Aug. 31.—Rome was visited by an earthquake at 2:40 p.m. today. The damage was slight and no casualties have been reported. The wall of the chapel of Santa Ann was cracked. The shock was felt especially in the higher quarters of the city. There was considerable apprehension in the crowded districts and men and women in the hospitals and prisons were in confusion because of the sudden assurances were given that there was no danger.

THE GRAND TRUNK PACIFIC TOWNSITE

ON THE PEMBRICA RIVER

2,000,000 acres of excellent Farming Land will be tributary to Entwistle as the nearest railway point of any importance. Trails are already opening up in many directions.

WHAT DOES THIS MEAN?

It means that thousands of settlers will be outfitting at, and going out from Entwistle.

It means Entwistle will be the centre of a vast and rich mixed farming district.

It means a big commercial and industrial point.

It means Entwistle will be a city in a very short time.

700,000,000 feet of Merchantable Timber, all of which must be manufactured at Entwistle. This means industries. It means money. It means business.

A THESE VAST NATURAL RESOURCES WILL MAKE OF ENTWISTLE THE BEST NEW CITY ON THE C.T.P. IN ALBERTA.

THE GRAND TRUNK PACIFIC TOWNSITE

65 MILES WEST OF EDMONTON

30,000 Acres of Coal Lands with a 27-foot seam of high grade lignite coal. Much of this has already been taken up and will be developed in the near future. More industries. More money. More business.

Building Stone.

The river banks at Entwistle are of solid sandstone, much of which is of excellent quality for building purposes. It is 130 miles nearer Edmonton than the present source of supply. Still more industries. Still more money. Still more business.

These are only a few of the things that will make Entwistle a sure investment, and a quick money maker.

There is no better or surer investment today than G.T.P. townsites that have big futures. This is one of the best.

HILD PARALYSIS EPIDEMIC

New York City—Ravages Stayed by Cool Weather.

New York, Sept. 5.—It is reported physicians who have been studying the peculiar child paralysis epidemic in East New York that the cool weather has apparently killed the germs of the disease. There are no

r. Simon Flexner, of the Rockefeller Institute, declared that hot weather stimulated the germ, whereas it was deadened by the cold wave which has recently swept over the country. He expects no further trouble this season, but fears that the disease

reappear next year. The most important thing for the present, he declared, was to find an anti-toxin which might repair the injury already accomplished.

WOMEN AID IN HARVEST.

Scarcity of Labor Necessitates Their Working in Fields.

Brandon, Sept. 5.—Travellers spending Sunday in the city say that along the Arcola line, the C.N.R. main branch and other railway branches west, many women are

working in the harvest fields. In some cases the women are drivers of binders, while on other farms they are doing the stooking, and in other lines of work many of the women are quite as active as men. Women are forced to work in the fields, owing to the scarcity of

very gingerly comedy-drama, "Front of the House," was also

night of Kentucky, was the last offering at the Orpheum theatre last night. While the theatre was crowded a good sized audience met the players on their first appearance and as the play proceeded the walls almost shook from the rattle and applause. The entire cast was superbly balanced and a work

is evenly balanced and a very little company. The play is of life, action, and comedy and equipped with scenery. If the museum players keep up to the standard instituted last night they will draw big crowds to the Orpheum as the public thoroughly understood that the relief of the house is
